Have you been missing the annual Pure Autumn Art Fair at the PowderMills Hotel?

Sadly due to Covid, Pure have been unable to deliver their spectacular annual artists open showcase since 2019. But they are delighted to now present to you an exhibition of truly exceptional quality, right on your doorstep at the Beauport House Gallery, Bannatyne Spa Hotel, Hastings.

Reimagined will consider the artists muse; the source of their inspiration. A muse, in the most basic sense, is something that serves as an inspiration to an artist. The word itself however dates back to Greek mythology, with Zeus' daughters forming the nine Muses who presided over the arts and science. This historical context has imbued the word muse with a distinctly ethereal, feminine quality.

In this exhibition Pure seek to reimagine the topography of the muse for the 21st century. Moving away from the historically acceptable notion of the muse as feminine, to a more complex, diverse narrative where the 'source' of an artists inspiration can

come in manifold, divergent elements and forms.

Featured artists include: Felicity Flutter, Louisa Crispin, Carole Bury, Hildegard Pax, Shulan Wang, Edith Pargh Barton, Ollie Holman, Markus Thonett, Brenda Hartill, Jonathan Hateley, Juliette Scott, Sandra Menant, Roel Funcken & Les Williams PSGFA.

Artwork will be displayed throughout the ground floor of the Hotel, including the dedicated Gallery space.

If you are making a special visit, please call ahead to ensure the gallery is open. If you would like to dine while visiting, booking is essential to avoid disappointment.
